About us

Kronos Metalcraft Private Limited is set with a vision to provide technology driven solutions to meet new industrial challenges. We manufacture Cold Roll Formed Continuous Limpet Coils and undertake Heavy and Customized Fabrication Work. We also provide Consulting Services in the field of Tube and Section Manufacturing to our clients to enable them with latest and efficient production processes.

We are a team of dynamic technocrats guided by industry veterans with rich manufacturing experience of more than 35 years in the field of roll forming and machine building. At Kronos Metalcraft Private Limited, we are committed to providing high quality products with continuous innovations to offer cost-effective solutions to our customers.

Product Range

Section	Size	OD	Thickness
LMC 50	50 NB / 2" NB	60.3 mm	2.0 to 5.0 mm
LMC 65	65 NB / 2.5" NB	73.0 mm	2.5 to 6.0 mm
LMC 80	80 NB / 3" NB	88.9 mm	2.5 to 6.0 mm
LMC 100	100 NB / 4" NB	114.3 mm	2.5 to 6.0 mm

Length of Continuous Limpet Coil up to 60 meter

Advantages

Advantages of cold roll forming technique over the conventional press bending and welding techniques using pipe split-ups or plate segments.

- Continuous coil with lesser to NO vertical joints along the vessel
- Better weld joint strength with the equipment due to lesser work hardening
- Reduces wastage of material and consumables
- Saves labor cost and welding cost
- Saves 60-80% time for tagging
- Better Aesthetics
